FOR IMMEDIATE RELEASE

Innovative Engineering, Inc. Launches their Turn Key Wireless Project Management & Engineering Services:

INNOVATIVE ENGINEERING, INC. having extensive experience in the wireless industry for over 20 years is expanding into the turn key project management and engineering of wireless sites, having completed over 10,000 projects to date. Our in-house capabilities include site acquisition, all disciplines of professional engineering (civil/structural/electrical), land use planning, zoning services, power provisioning, surveying, permitting, right of way services, expert witness testimony, and construction management. We are committed to being on the cutting edge and have been successful in many aspects of WiMax, LTE, fiber backhaul, PCS, alternative power/energy, and stealth projects. Innovative provides all of the services required for our client's wireless projects and build programs; from concept to on-air.

"Innovative is anticipating 2010 to be a great year for the telecommunications industry, and we will continue to produce results for our wireless clients as we have since the early 1990's when we completed the design-build for some of New Jersey's first sites." said Louis A. Scheidt, P.E. P.P., President and CEO of Innovative Engineering, Inc.

Innovative's corporate headquarters is conveniently located in Wall Township New Jersey, and additionally has an office location in Midland Park, New Jersey. These locations have allowed the firm to respond to clients' needs in a timely and efficient manner for the past 33 years. Innovative provides high quality engineering services to municipalities, educational facilities, governmental agencies, property owners, solar/wind companies, real estate development professionals, national telecommunication/communication companies, architectural firms, housing developers, retail companies, and power/utility companies. Our diverse staff of 50 professionals, with over 10 professional engineers and planners (PE/PP's), licensed in over 20 states, has a long-standing, proven record of accomplishment and producing results in a cost-effective manner that maximizes our clients' engineering investment, they are also a registered SBE in the state of New Jersey. Innovative provides civil, solar/wind/renewable, environmental, survey, structural, electrical, mechanical, plumbing, geotechnical, municipal, power, alternative energy, and telecommunications engineering services to its broad base of clients.
