INNOVATIVE ENGINEERING E-NEWS BYTE:

INNOVATIVE Engineering Completes Design of 200,000 Household for Verizon's FTTP Program

TOMS RIVER, NJ – Innovative Engineering announced today that they had cumulatively completed the fiber distribution design of 200,000 households for Verizon's FTTP (Fiber-To-The-Premises) program. Innovative's strong focus on quality results has allowed the company to consistently grow to a production rate of over 20,000 households passed per month.

“We are excited to have passed this major milestone and continue to enhance our workforce to achieve even greater milestones in the months and years to come,” said Louis A. Scheidt, PE, PP, CEO of Innovative Companies.

For more information, contact Innovative Engineering at 732-240-4400 or log on to the company's website at <http://www.InnovativeEngineering.net>.
