**INNOVATIVE ENGINEERING E-NEWS BYTE:**

## **Innovative Engineering Completes the Planning of 300,000 Households for Verizon's FTTP Program**

**Toms River, NJ** - Innovative Engineering announced today that the Company has cumulatively completed the fiber distribution planning of 300,000 households for Verizon's FTTP (Fiber-To-The-Premises) program. Innovative is the premier planning vendor in New Jersey and Western Pennsylvania and is at the forefront in the development of new planning techniques that allow for more cost effective engineering and construction. Innovative passed this major milestone this month, while also turning in a record 39,000 households planned in the month of May.

“Our experienced planning team continues to produce great quality plans that allow our engineering force to generate fantastic results on the FTTP build-out, “ said Louis A. Scheidt, PE, PP, the CEO of Innovative Companies.

For more information, contact Innovative Engineering at 732-240-4400 or log on to the company’s website at <http://www.InnovativeEngineering.net>.
