FOR IMMEDIATE RELEASE

Innovative Engineering, Inc. is continuing to expand their Building and Developer Services Team:

Innovative Engineering, Inc. is pleased to state that it has recently grown their Civil, Geotechnical, MEP, and Structural departments with the addition of a few very talented professional engineers and engineers in training. Our “**Building and Developer Services Team**” has an extensive resume and project list which includes working with some of the most prominent architects, developers, and land owners in the North East. We have demonstrated success with all disciplines of engineering for clients in the areas of; municipal, industrial, pharmaceuticals, telecommunications, utilities, retail, shopping malls, commercial offices, schools, jails, police stations, religious facilities, fire stations, municipal garages, libraries, sports, casinos, hotels, historic, hospitals, and federal projects. This team is comprised of the Civil, Site Development, and Geotechnical department, the Mechanical, Electrical, Plumbing department, as well as the Structural department. Our team’s excellent professional engineering, design, and project management services have afforded the Innovative “**Building and Developer Services Team**” with the opportunity to produce great results for our clients.

"Innovative has been able to serve all of the engineering and design needs of its architect, developer, and land owners under one roof and with great results, we have worked on millions of square feet and thousands of acres in the tri state area," said Louis A. Scheidt, P.E. P.P., President and CEO of Innovative Engineering, Inc.

Innovative’s corporate headquarters is conveniently located in Wall Township, New Jersey, and additionally has an office location in Midland Park, New Jersey. These locations have allowed the firm to respond to clients’ needs in a timely and efficient manner for the past 30 years. Innovative provides high quality engineering services to municipalities, educational facilities, governmental agencies, property owners, solar/wind companies, real estate development professionals, national telecommunication/communication companies, architectural firms, housing developers, retail companies, and power/utility companies. Our diverse staff of over 50 professionals, with over 10 professional engineers (PE’s), licensed in over 20 states, has a long-standing, proven record of accomplishment and producing results in a cost-effective manner that maximizes our clients’ engineering investment. Innovative is also a registered SBE in the state of New Jersey. Innovative provides civil, solar/wind/renewable, environmental, survey, structural, electrical, mechanical, plumbing, geotechnical, municipal, power, alternative energy, and telecommunications engineering services to its broad base of clients.
