FOR IMMEDIATE RELEASE

## **Innovative Engineering, Inc. is continuing to expand their Federal & State Government Services Team:**

**INNOVATIVE ENGINEERING, INC. (IEI)** has continued to expand its services to the United States federal and local state government agencies, having worked on many of the federal properties and bases in the Northeast region. Our “**Federal Government Services Team**” comprised of professional engineers, planners, project managers, and drafters are continuing to provide our engineering, planning, and design services to all branches of the federal and state government as a registered and verified vendor on all of the applicable federal and state databases. Federal & state agencies can gain access to our highly qualified firm in the following engineering disciplines on a subcontracted or prime contracted basis; engineering (A&E) and design Services, foundations and landscape engineering, HVAC engineering related to buildings and structures, surveying services, environmental services, construction and architect-engineering services, construction administration management services, GSA's public building service contracts, chemical engineering, civil engineering (CI) (structural, geotechnical, water resources, transportation), mechanical engineering (ME), and electrical engineering (EE).

"Innovative has been able to serve our great country's engineering and design needs with great results, we have worked on many of the federal and state facilities regionally specific to us and we look forward to broadening our reach at these locations," said Louis A. Scheidt, P.E. P.P., President and CEO of Innovative Engineering, Inc.

Innovative's corporate headquarters is conveniently located in Wall Township, New Jersey, and additionally has an office location in Midland Park, New Jersey. These locations have allowed the firm to respond to clients' needs in a timely and efficient manner for the past 30 years. Innovative provides high quality engineering services to municipalities, educational facilities, governmental agencies, property owners, solar/wind companies, real estate development professionals, national telecommunication/communication companies, architectural firms, housing developers, retail companies, and power/utility companies. Our diverse staff of over 50 professionals, with over 10 professional engineers (PE's), licensed in over 20 states, has a long-standing, proven record of accomplishment and producing results in a cost-effective manner that maximizes our clients' engineering investment. Innovative is also a registered SBE in the state of New Jersey. Innovative provides civil, solar/wind/renewable, environmental, survey, structural, electrical, mechanical, plumbing, geotechnical, municipal, power, alternative energy, and telecommunications engineering services to its broad base of clients.
